

Porcelain Art: Success to IPAT Art Appreciation – Techniques Around the World Certification

This lesson book helps you to gain a deeper appreciation for varied cultural styles and techniques of art that have been produced over the centuries. Part I introduces major traditional arts and techniques closing with a research on artists. Part II focuses in the development, styles and techniques in porcelain art in Europe followed by a research on art movements. Part III features the American style of porcelain painting including modern designs and techniques. The 15 lessons are illustrated by > 50 renowned porcelain artists' artworks.
